Subject: Monday Update

We have now finished 7 weeks of semi-lock down here on campus. Our city has had less than 30 cases of Covid-19, and only 2 deaths, for which we are thankful. Many commercial stores are now functioning with social distancing and face mask requirements being enforced. One of our sister churches here in the city has begun meeting under certain conditions. Just 4 months ago, to imagine having a service as portrayed in the picture below would have seemed really strange. It is fascinating how quickly our circumstances in this world can change. We are grateful that our training is still being offered both in person and via internet.

Recently, a couple saw our church's Sunday "services" online. They expressed interest and our national pastor was able to make a quick (and socially distant) visit on them. Please pray that the Lord would use these broadcast services to reach others in our community.

Jan had her five-year check-up with her cancer doctor this week, and all her tests were clear. She will stop her hormonal medications this week. Praise the Lord with us for this wonderful milestone and the Lord's goodness.

In mid-April we sent an update video to a couple of our supporting churches. If you would like to download the video to show at your church, here is the link. (This is a 4-minute HQ video but almost 500MB) The link is only good for the next 6 days.

For His Harvest,

Ed and Jan
